

Did You Know??

# Domestic Violence Awareness Month

Multiple studies have found that between 49% to 71% of battered women report that their pets have been threatened, harmed, and or killed by their partners.

Across various surveys, between 18% and 48% of battered women delay leaving a dangerous situation out of concern for their pets' safety.

When animals in a home are abused or neglected, it is a warning sign that others in the household may not be safe.

We are pleased to partner with the Humane Society of the United States to present

## “The Link”

Join us as we explore the connection between family violence and pet abuse.

**Monday, October 22, 2018**

**9:00am - 2:00pm**

**Check-in: 8:30am**
